Progress Report

1. design document and teamwork plan with task assignments and milestone calendar
2. missed milestones: significant internal coding deadlines
3. difficulties:
    a. original plan was far too ambitious
    b. coding deadlines set before design deadlines
    c. half of the team was gone - communication and planning problems
4. problem analysis: changed audience to focus on employers; condensed purposes to three main goals
5. design: identified more challenges and risks, simplified shift model, added availability as non-optional feature
